

Pursuit 3070 Center Console; C 300

2001-07

The Pursuit 3070 Center Console (called the C 300 in 2007) is a top-tier fishing platform with forward seating and an impressive list of standard features. Pursuit always builds a great boat and it's no surprise that the 3070 was among the most popular center consoles of her day. With her roomy cockpit, large console and uncluttered deck layout, the 3070 is a big 30-footer with more storage than many center console boats her size. Fishing amenities include a 40-gallon transom baitwell, leaning post with rocket launchers, lockable gunnel rod storage, cockpit bolsters, and a transom rigging center with sink and cutting board. Fish/storage boxes are forward under the seats and aft in the deck. The Pursuit's oversized console houses a standup head compartment with electric toilet, sink, hand-held shower, and teak-and-holly sole. Additional features include an integral bow pulpit, dual electric adjustable helm chairs, raw-water washdown, anchor locker, tilt-away helm, trim tabs, low-profile bow rails, and a console cooler seat. Not only is the Pursuit 3070 a versatile and well-built boat, she also has tons of eye appeal. Yamaha 250hp engines top out at 40 knots.
